

PRODUCT INFORMATION HYDRA

HYDRA - THE POWERFUL FD VACUUM CLEANER

Reliability, great flexibility in use and years of proven endurance are the strengths of the HYDRA FD vacuum cleaner. Ideally harmonised components allow a stable and compact construction. The device convinces with a robust tank and a powerful suction head. Optimised handles as well as large wheels result in excellent transportability.

The sewage water pump which is installed in the tank has a suction capacity of up to 20,000 l/h. The suction turbine in the head of the unit not only moves normal water, but also transports and pumps heavily polluted, contaminated water and sludge with a blockage-free solid passage of 50 mm. As a real all-rounder, the HYDRA is the solution to the real problems.

- Tremendous handiness and excellent rolling features
- Large 70 l tank
- Robust materials and compact design
- 12 m long suction and drain hoses
- No service-intensive electronics
- Continuous operation with 5 kVA DIN generators
- Cable length 10 m including a 16 A Schuko plug; protection class IP68 with bayonet ring and protective cap
- Personal protection switch
- Working noise of 64 dB (A)

SET INCLUDES:

- HYDRA FD vacuum cleaner
- 12 m suction hose
- 12 m drain hose
- Suction pipe, 2-piece, \varnothing 50 mm
- Aluminium floor nozzle

TECHNICAL DATA	Item No. HYD2000
SUCTION CAPACITY	20,000 l/h
OSM-TURBINE POWER	1,200 Watt
PUMP POWER	1,500 Watt
WEIGHT (WITHOUT ACCESSORIES)	33 kg
SUCTION AND DRAIN HOSES	12 m each, \varnothing 50 mm
SIZE WITH FOLDED HANDLE	47 x 60 x 84 cm (W x D x H)
SIZE WITH HANDLE	47 x 60 x 97 cm (W x D x H)
