

INFORMATION MOBILE CONTAINER

MOBILE CONTAINER RÖSSLE – INDIVIDUAL SOLUTIONS FOR EMERGENCIES

Just as individual and flexible as the operational needs of the fire departments – the individually equipped mobile container from Rössle AG.

The mobile container made of anodised aluminium profiles can be equipped with various combinations of the HYDRA series such as HYDRA and HYDRA-BOY as well as the pre-separator ULTRA by means of individually adjustable guide rails. The corresponding accessories can also be stowed safely and are immediately within reach.

To ensure safe handling while providing maximum mobility, the mobile container is equipped with two ball-bearing swivel castors, two ball-bearing fixed castors with drum brakes and dead man's function as well as a foot-operated parking brake.

Specially adapted and equipped to the requirements of each fire department, the mobile container is the ideal equipment to be able to move out and help immediately in the event of an emergency.

- Individual production adapted to customer requirements
- Construction according to AGBF guideline 08/2014
- Stable and durable construction made of high-strength aluminium profiles
- Platforms made of weatherproof plywood

- Ergonomic operation via a continuous handle bar with non-slip and cold-insulating soft-grip coating
- Two swivel castors with ball bearings with central wheel and swivel head adjuster for optimum handling characteristics
- Two fixed castors with ball bearings with drum brake and dead man's function. Insensitive to dust, moisture and oil
- Foot operated parking brake
- Recess in the base plate along with a safety strap for an optional hose basket for C-hoses
