

PRODUCT INFORMATION UNIVERSAL SQUEEGEE

THE UNIVERSAL SQUEEGEE - SIMPLY MOVE AWAY DIRT, LIQUIDS AND CO.

When dirt and liquids need to be removed during operations, the universal squeegee replaces conventional brooms and rubber sliders and delivers the desired result thanks to its versatility.

The removal of water, fire extinguishing foam, oil binder and other soiling, such as glass and chips, is enormously facilitated by the alternately applicable sliding strips on any surface. Even on irregular surfaces, excellent results are achieved since the flexible sliding strips adapt to the floor and do not tilt. The universal squeegee is the perfect addition to our product range.

**MULTI
SCHIEBER**

- New: variant with anti-static natural bristle broom Piassava
- For the removal of a wide variety of soiling in solid and liquid form
- High chemical resistance
- Due to the protective shield shape of the thrust surface, liquids are directed in the pushing direction
- Quick and easy two-way use due to two different thrust surfaces: blue plastic lip and white nylon broom
- The length of the telescopic rod is easily and quickly adaptable by means of the quick-release fastener
- The break-proof GRP rod offers considerable advantages over conventional products made of wood or aluminium

UNIVERSAL SQUEEGEE

TECHNICAL DATA	Item No. HYDS50 // HYDS51
BROOM STRIP	Nylon broom or Piassava natural bristles
MATERIAL	Plastic, GRP, aluminium
WEIGHT	2,2 kg
DIMENSIONS	168 x 50 x 25 cm (L x W x D)
